

BMVS Installation

- Screw BMVS all the way into the riser of the bow.
- Back it out until the mounting platform is at a 90* angle to the riser.
- Using a ½ inch wrench, snug up the locking nut to the riser (do not over tighten).

Camera - Screw on to the mounting platform so it is facing forward and secure in place with the thumb nut.

Turn camera on and view screen to assure proper positioning. Adjust as needed.

Smart Phone Clamp – Screw on to mounting platform with arm in front.

(Warning: Not recommended to attach phone while walking through the woods. Phone can become dislodged if bumped with a branch.) Secure Velcro safety strap.

Stabilizer Only – Remove mounting platform and replace with rubber tip.

Action Camera Handle Bar Mount - Attached to the rubber tip of the BMVS.
